# 2020 Election Talking Points

[www.fsunion.org](http://www.fsunion.org)

## Bank Closures

Customers and communities are negatively impacted by local bank branch closures. Studies show that lending to local business declines when bank branches close. Limited internet access in rural communities and glitches in bank IT systems highlight the importance of local, in-branch services for customers.

## Pay Equality

We are calling on all candidates to support mandatory gender pay reporting and action legislation. This would mandate employers to report on the gender pay gap in their company and put together an action plan in consultation with the relevant trade union. This plan must be published to staff.

## Right To Disconnect

We're calling for legislation that would mandate employers to negotiate 'right to disconnect' policies with unions. The right to disconnect means not feeling obliged or under pressure to respond to work calls, emails or messages after paid working hours.
